FOUNDED 1954**

Dear Fellow Mariner,

The Tampa Cruis-A-Cade Boating Club/Marina will be participants in the seventh annual National Marina Day Celebration. On behalf of our club members, we would appreciate your presences at this year's public event and festivities. Having your company participate in such a meaningful event will confirm to people across the nation how group participation amongst a community is the American way.

National Marina Day recognizes the important recreational, environmental, and social contributions marinas like ours make to thousands of waterfront communities all across America each day.

We here at the Tampa Cruis-A-Cade believe that America's marinas have a lot to celebrate and be proud of today. In 1928, the word "Marina" was defined as a recreational boating facility. Providing the community as a boater's education center, the Cruis-A-Cade, together with marinas across the nation have served as a gateway to boating for millions of people seeking to enjoy America's rivers, lakes, bays, and oceans. Whether they are cruising, sailing, fishing, or participating in water sports, boaters look to marinas to provide the facilities and services they need to get their voyages off to the best possible start.

For over fifty years, boat-owning members of the Tampa Cruis-A-Cade have dedicated their spare time working with and serving the community as public Stewards of the environment. A commitment that began in 1954 to increase the pleasure of boating by group participation would bring the boat-owning enthusiast and their families together. Today, that commitment along with other milestones of the past has created a strong foundation for our future Boaters of America and their families to enjoy for another 50 years

Now, more than ever, Americans need a clean, safe, and relaxing location where they can spend their leisure hours. On National Marina Day, we rededicate Tampa Bay's "First" Premier Family Boating Club/Marina, the Tampa Cruis-A-Cade to being a local, environmentally friendly destination. We look forward to serving the Tampa Bay Area as a gateway for family and friends to enjoy one of America's greatest natural resources, our waterways.

Please recognize our invite by contributing your support to our National Marina, fifty years ago today celebration. In addition, as usual, our door is always open to serving the community.

Sincerely, Jolene Perez, Event Coordinator
